1 - Requires optional module and/or 3rd party service provider

2 - Customer Order History requires optional PC Workstation™ software

Why Reflection™

Reflection™ Embedded is proven POS software with more than 20,000 systems installed in 35 countries around the world.

Reflection is equipped with the most sophisticated network on the market. System information is replicated on every terminal across the high-speed TCP/IP network.

Built on solid-state technology and an embedded operating system, Reflection is not susceptible to viruses or spyware so you can rest assured that Reflection will be ready to perform when you need it.

Why take a chance with anything else!
